

SeaDataNet

*PAN-EUROPEAN INFRASTRUCTURE
FOR OCEAN & MARINE DATA
MANAGEMENT*

WP3: Capacity building & Training

Training: Target audience

- Data managers
 - Technicians
- ... from all the SeaDataNet data centres

Training: Purpose

- For the data managers:
 - to learn how to work with the upgraded common formats and procedures (WP8) and software tools (WP9)
- For the technicians:
 - To be trained in implementing and configuring the upgraded tools and in upgrading the connectivity between their data centre and the portal

➔ *Please identify the appropriate persons in your institute.*

Training: Sessions

- 4-5 days
- At the IODE Programme Office, Ostend, Belgium.
- 1st session: July 2–6, 2012 (M10)
- 2nd session: [*May 12–16, 2014*] (M32)

During this 2nd session, more emphasis on handling marine biological data

Capacity building

- Three regional clusters:
 - IEO, IODE-PO (ODIN) ↔ INRH (Marocco), INSTM (Tunisia), Enssmal (Algeria), CSIC (Spain)
 - OGS ↔ INEWI (Albania), IMBK (Montenegro)
 - SIO-RAS ↔ RSHU (Russia)
