

# Marine-id and other user authentication business

IFREMER

## Users, 2 trust scope

#### • Data services users (downstream):

read/only access

SeaDataNet

- personal user support
- usage statistics purpose
- low security requirements

#### • Partners and data providers (upstream):

- advanced access (data push, processing)
- high security requirements

# solution: 2 technology proposals

- Data services users (downstream):
  - Marine-ID

SeaDataNet

Social networks (google or facebook logins)

• Partners and data providers (upstream): GEANT/eduGain federation of identity for education and research organizations.

## Marine-id, what we now have

- Self registration and profile management service (PWM)
- Single Sign On solution (CAS) implemented for:
  - SeaDataNet data access service (RSM+DM)
  - SeaDataNet product access service (FTP)
  - EMODNET services (hydrography, ingestion...)
  - Coriolis data access service
- User database and statistics (sugarCRM)

#### SeaDataNet Marine-id, registration and profile

## Marine-id, usage reporting

SeaDataNet

PAN-EUROPEAN INFRASTRUCTURE FOR OCEAN & MARINE DATA MANAGEMENT

# Federation of identity

# Re-use your institute/organization login to connect to services

Pour accéder au service RENATER - Universalistes sélectionnez ou cherchez l'établissement auquel vous appartenez.

Bienvenue

Foodle est un service de sondages rapides et de planification de réunions.

Vous êtes authentifié en tant que LOUBRIEU Thomas (Thomas.Loubrieu@ifremer.fr)

# Marine-id and other AAI, plans

SeaDataNet

- Generalization of solutions (provide updated developer documentation).
- •Ergonomy enhancements (e.g. email report after registration), new look and feel, especially logo
- Extension to social networks
- Extension to Copernicus MEMS...

• provide services in the **GEANT/eduGain federation of identity**, e.g. alfresco, ownloud...

- Integration with EUDAT solutions (B2ACCESS)
- Links WP5 on usage reporting
